UPHOLSTERY EXPLANATION

In terms of upholstery, Stide seats are composed of two distinct layers: the primary fabric, which forms the main surface, and the belly fabric, which forms the inner surface. This distinction is illustrated in the image below.

To exemplify the image, for the Volkswagen Transporter T6, the main fabric is specified as A2 BLACK, whereas the belly fabric is designated as Bulli.

Main Fabric:

Belly Fabric:

If only the belly fabric is specified and the main fabric has not been selected, the main fabric shall be defaulted to the vehicle's original front seat upholstery.

FYI: If there is a request for the main fabric to also serve as the belly fabric, please inform us accordingly in order to avoid any possible confusion.
